

THE UNIVERSITY
of ADELAIDE

A photograph of a window with a view of a tree and a building. The window is divided into panes, and the view outside is slightly blurred. The tree is in the foreground, and the building is in the background. The overall tone is somewhat muted and artistic.

Disability Action Plan 2014 - 2019

The Plan also addresses the need for a more robust system of health care financing, particularly for long-term care and mental health services. The Plan proposes a new funding source for these services, based on a percentage of state income tax revenue. The Plan also proposes to expand the use of state bonds to finance health care infrastructure projects, such as the construction of new hospitals and the renovation of existing facilities. These measures are intended to ensure that the state has the resources it needs to meet the health care needs of its residents.

The Plan has been designed in accordance with the principles of fiscal responsibility and sound public policy. It is intended to provide a clear and comprehensive framework for the state's health care policy over the next several years. The Plan is a result of extensive consultation with stakeholders, including health care providers, patients, and the general public. It is a bold and ambitious plan, but one that is necessary to ensure the long-term health and well-being of the state.
